

SEVEN SENT DOWN

BIOTYLE RECORDS SUFFER GRIEVOUSLY AT SAN DIEGO.

Scheffski's Hops Out His Wheel for a Try at the One-Third Mile Standing Start Unpaced, and Springs Both Cranks, Coming in With Wounds and Bruises, But a Winner, With Three and One-Half Seconds Off the Previous Record—Will Evans Takes Three, Kiser Two and Randall One.

San Diego, April 17.—Seven world's records were made here by bicycle riders today.

Scheffski started the ball rolling with a performance that is remarkable. His attempt was for a standing start un-paced one-third mile. The former record stood to the credit of William Hamilton, 41 seconds. Scheffski's time was 17 4/5 seconds, cutting 3 1/5 seconds from the former record. Scheffski sprang both cranks in starting. This caused him to strike his ankles, and when he finished the blood was running into his shoes.

Will Evans the amateur, went next and put up to his credit three performances during the forenoon that will be very hard to equal. He made the following un-paced flying amateur records: One-quarter, 25 1/5; one-third, 34 1/5; one-half, 45 1/5.

Kiser went for the half-mile paced record of 45 seconds, and he succeeded in cutting the record one-fifth of a second. He was later paced for the one-third mile, which stood at 30 2/5. This he lowered to 20 1/5.

Randall then went behind the same team for one-quarter mile, which stood at 24 4/5, and he succeeded in cutting it down to 23 2/5 seconds.

TO CURE A COLD IN ONE DAY

Take five drops of Eucalypti Tablets. All druggists refund the money if it fails to cure. 25c.

Fifty and Hundred Yard Records.

Danville, Ky., April 17.—At Center college this afternoon, L. C. Ashcroft of Commerce, Mo., lowered the amateur record for fifty yards to 5 2/5 seconds and hereford Smith of Danville lowered the collegiate record of ten seconds for 100 yards, held by Crum, to 9 1/5 seconds, equalling the world's professional record.

Closing Game Won by Ives.

Boston, Mass., April 17.—Frank Ives won the closing game and the champion ship in the second series of the international billiards tournament, defeating Schaefer, 30 to 28.

Barnstead hall, which has been the Mecca for billiard enthusiasts during the week, was crowded to its utmost capacity for the closing game of the series. Both Schaefer and Ives had each two victories to their credit, and tonight's game decided the championship. Schaefer was the favorite with the majority of the spectators, but his defeat was a great disappointment.

His playing was by no means up to the standard. Frequently he had the game well in hand, but would slip up on comparatively easy shots. Ives played a cool, careful game throughout and only in the last innings did he manifest any nervousness.

The game opened with Schaefer, who won the bank, but failed to score. Schaefer's work at times revealed seeming impossibilities and a world of science in the curves of the ivory, but he failed to increase his string materially until the seventh inning.

In the thirty-third inning he manifested his old-time ability and got in a few good runs, which led his friends to feel more buoyant.

Ives' work was of the careful sort, that saved all his positions intact by means of a feather-edge touch, and his luck in counting was again manifest. When Schaefer was 27 and Ives 28 the audience was worked up to a high pitch, and the by-standers would have landed Schaefer a winner, but in seven innings he only added five to his score. Ives got the ivory, however, in his favorite corner, and wound up with a flourish. Ives' highest run was 30; average 4.36-66.

Schaefer's highest run was 26; average 4.24-66.

The Rack, the Thimble and the Boot.

Were old-fashioned instruments of torture long since abandoned, but there is a tormentor who still continues to agonize the joints, muscles and nerves of many of us. The rheumatism, that inveterate foe to daily and nightly comfort, may be conquered by the timely and steady use of the famous Stomach Eucalypti, which likewise eradicates neuralgia, bilious, malarial, bowel, stomach and nerve complaints.

Montauk Cut Up Badly.

London, April 18.—Speaking of Montauk's race yesterday the Daily News says: "If Montauk's performance is the best that he can show, his supporters for the Derby have wasted their money."

The Chronicle remarks that Montauk's performance was an ignominious one.

The Sportsman says: "Montauk went through his usual performance. Being made a red-hot favorite and one of the first bets, he need not be further considered as a connection with the City and Suburban."

Elsewhere the Sportsman says: "Montauk has always been more or less mysterious. He is an enormous, coarse, lumbering, half-trained colt, and is un-

der the Rack, the Thimble and the Boot.

THE SWEARS IT

Does Leslie Bush, Asst. School Land Commissioner, of Guthrie, Oklahoma.

Territory of Oklahoma, ss. County of Logan.

Personally appeared before me, Wm. Blincoe, a notary public in and for said county, on the above date, Leslie Bush, who first being duly sworn deposes and says: That for about three years prior to September, 1895, his hair continually dropped out until he had become almost bald; that in September, 1895, he began to take the free treatment for baldness furnished by the Knowlton Danderine company at their office in Guthrie, Okla.; that in a short time thereafter his hair ceased to fall out and began to thicken; that he continued the treatment daily for thirty days, and that since that time his hair has continued to thicken and grow very fast, until now it is almost as thick and vigorous as it ever was.

LESLIE BUSH.

Subscribed and sworn to before me this 15th day of February, 1896.

WM. BLINCOE.

My commission expires August 24th, 1896.

Nothing is impossible. A few weeks ago you would have been hooted at the idea of taking a photograph through a brick wall. Now you are doing it every day. You doubt that anything can grow hair on bald heads. Why? Simply because you have never seen it done, or because, perhaps, you have been deceived time and time again by those so-called restorers. Mr. Bush, whose affidavit is given above, had no more faith than you have. His experience is only one in a thousand.

You need not take our word alone. Write for the Danderine Herald and read what it says.

Ladies, if you would have beautiful hair—soft and clinging as the snowflakes, fluffy and most luxuriant—then use DANDELIN—If once, then always.

All druggists, or sent on receipt of price, \$1.00 per bottle.

KNOWLTON DANDERINE CO.

55 ft. Guthrie, Oklahoma.

likely to be seen with winning colors for the rest of the year, but in fact he may fine down and earn his corn."

Sporting Life says: "Montauk cut up very disappointingly, and as a consequence 100 to 1 is offered against him for the Derby."

Newport Races.

Cincinnati, O., April 17.—Favorites had a good day at Newport today and the talent got all the money. Margaret E. threw Hall, her rider, in the third race and fell over a fence. Neither horse nor boy was hurt. Track fast, weather fine.

First race—Selling, six and a half furlongs, 2-year-olds, purse \$400: Aurelia won; Elbert, second; Herman, third. Time, 1:21 1/2.

Second—Three-year-olds and upward, seven furlongs, purse \$400: Zeanne won; Sidle, second; Probasco, third. Time, 1:28 1/2.

Third—Half mile, 2-year-olds, \$400: Lady Louvain won; second; Woodlawn, third. Time, 1:39 1/2.

Fourth—Selling, six and a half furlongs, 2-year-olds, purse \$400: The Banker won; Hippogrit, second; L. W., third. Time, 1:41 1/2.

Fifth—Selling, mile and fifty yards, 4-year-olds and upward, purse \$300: Ixion won; Golden Crown, second; Tariff Reform, third. Time, 1:53 1/2.

Sixth—Selling, six and a half furlongs, 3-year-olds and upward, purse \$400: Cyclone won; Tremor, second; Summer Con, third. Time, 1:21 1/2.

Foray Race.

Chicago, April 17.—There was another big crowd with good betting at Foray today. The speed of the new course was shown when Jennie June beat Hi Henry at five furlongs, in 1:30. Two favorites won. The Deuce spread-eagled his field in 1:31 1/2. Magnet dodged Jennie June and Hi Henry. Summaries:

First race—Six furlongs; May Galop won; Pert, second; Nikita, third. Time 1:15.

Second—Half mile; Lillian Wilkes won; F. Garner, second; Thomas Payne, third. Time, 1:30 1/2.

Third—Five and a half furlongs; Floreanna won; Frankie D, second; Bari, third. Time 1:39.

Fourth—Five furlongs; Jennie June won; Hi Henry, second; May Ashley, third. Time 1:30.

Fifth—Mile; Moss Morgan won; Dick Bohan, second; Longdale, third. Time 1:44.

Sixth—Five furlongs; The Deuce won; Extra, second; Perryman, third. Time 1:31 1/2.

Memphis Races.

Memphis, Tenn., April 17.—The track today was in fine condition. Favorites won the third and fourth events, and Jane, in the fifth race, was a strong second choice and carried the public money. Summaries:

First race—Purse \$200, 2-year-olds, six furlongs; Bishop Reed won; Truxillo, second; Agent, third. Time, 1:26 1/2.

Second—Purse \$400, 2-year-olds, six furlongs; Rondo won; Hanlon, second; Nat P, third. Time, 1:34 1/2.

Third—Half mile; Dura won; Alma, second; Lost Girl, third. Time, 1:39.

Fourth—Mile; Paros won; Arno, second; Instigator, third. Time, 1:54.

Fifth—Six furlongs; Joe Terry won; Don Caesar, second; All Over, third. Time, 1:41.

Sixth—Mile; Pollock won; Rebellion, second; Trix, third. Time, 1:42.

ROE'S LION IS ELECTROCUTED

His Pugilistic Master Very Nearly Shares the Same Fate.

Cleveland, O., April 17.—Robert Fitzsimmons, the prize fighter came within an inch of being electrocuted last night. As it was, his pet lion, Nero, was killed and Fitzsimmons severely shocked and quite seriously burned. The animal had been taken to the roof of Rhythm's gymnasium shortly after midnight last night. Fitzsimmons went on the roof to see the lion. His chain became entangled with some electric light wires and was drawn up and across the pugilist's things. In his agony the lion leaped over the edge of the roof and hung by his neck. Fitzsimmons was removed to the hotel and was in a dazed condition for over an hour. There was a severe burn across his thigh.

San Francisco, April 17.—Results:

First race—Five and a half furlongs; Gus Bug won; Tim Murphy, second; Lovett, third. Time, 1:39 1/2.

Second—Seven and a half furlongs; Palomacita won; Belle Boyd, second; Rapido, third. Time, 1:41 1/2.

Third—Half mile; Dura won; Alma, second; Lost Girl, third. Time, 1:39.

Fourth—Mile; Paros won; Arno, second; Instigator, third. Time, 1:54.

Fifth—Six furlongs; Joe Terry won; Don Caesar, second; All Over, third. Time, 1:41.

Sixth—Mile; Pollock won; Rebellion, second; Trix, third. Time, 1:42.

YIELDS TO FRANCE

DUSKY QUEEN OF A SOUTH SEA ISLE MADE A SUBJECT.

Her Subjects, Numbering a Thousand Fierce Barbarians, are Capable of Giving the French Plenty of Trouble But Eventually a Night Expedition From a Gunboat Settles the Matter and France has a New Coaling Station—Queen Mamea Said to be Subdued and Fast Giving Trouble—England Will Protest.

San Francisco, April 17.—The brig City of Papeete, from Tahiti, brings news that Queen Mamea of the island of Raiatea, in the South seas, has surrendered to her old enemies, the French. The queen, according to the reports, is now thoroughly subdued and beyond giving further trouble. Queen Mamea has reigned over Raiatea nearly a score of years. Her subjects numbered about 1,000 people, fierce and uncivilized. Many efforts were made to conquer her, without avail.

A few months ago a French gunboat appeared at the island in the night and landed a strong force. In the morning the queen found herself surrounded and was compelled to surrender. She gave the French complete sway over the island with the condition that she be recognized as queen. France is to control the shipping, which is a very valuable asset, and is to be permitted to establish a coaling station at the principal harbor. When the Papete left Tahiti the French gunboat was anchored off Raiatea. The English are said to oppose French possession of the island and will ask that it be restored to Queen Mamea.

Nicaragua Canal Men

Commissioners Appear Before the Congressional Committee.

Washington, April 17.—The Nicaragua canal hearings were continued today. Mr. Endicot explained the plans for the Cacho dam and said that the dam would be safe if not used as a weir. Mr. Noble of Chicago, the civilian member of the commission, explained how the commission had made up its estimate of the cost of the work by consultation with contractors in the United States accustomed to handle work of the same character. About \$2,000,000 of the additional cost over the company's estimate was due to the enlargement of the canal which the commission thought necessary. Mr. Noble thought the climate of Nicaragua more healthful than that of the Mississippi bottoms.

In reply to a question from Chairman Hepburn, Mr. Noble said that there had been no conversation with Nicaraguan officials regarding their willingness to have the United States government assume control of the work. With the modifications proposed by the board he had no question that the canal would be a commercial success.

MORE MONEY FOR ARMENIA

Miss Barton Sends Another Appeal to the Relief Association.

New York, April 17.—Clara Barton of the Red Cross cables to the National Armenian Relief commission as follows: "Constantinople, April 17.—Trask, New York; Hubert, in charge of the Red Cross relief expedition at Marash reports, April 13: 'Three thousand sick of typhus, including the English consul.' On the 15th he reports 'sickness at Zeitoun increasing, with forty or fifty deaths daily.' Great need for funds. General condition for relief favorable. Signed: BARTON."

The National Relief association, in giving out this information, says that one-fifth of the \$500,000 needed by the lowest calculation to carry on the work of the Red Cross society in Asiatic Turkey has yet been given. Unless the destitute are aided until the next crop is secured, all the money thus far spent through the various agencies will be practically thrown away and thousands will perish by pestilence and starvation.

There is danger in impure blood. Hood's Sarsaparilla ensures safety and good health.

London, April 17.—The Exchange Telegraph company says that the rumor that Buluwayo has been recaptured by Matabeles has not been confirmed.

Peoria, April 17.—By an explosion of the converter at the works of the American Glucose company this morning John Hoey and a man named Burns were instantly killed. John Wilson, Nat Connelly and John Dooley were badly injured. The fourth story of the works was wrecked.

A Kabyle Hero.

The easy-going Kabyles push democracy to extreme limits, living on families and equities, and their cattle and their swine all occupying the common dwelling. A fine, hardy race of great bravery and many noble traits, they yet resemble the Arabs in their want of honesty. A story is told of a chief of theirs, Mokrani, which makes us think the days of chivalry are not yet gone. When, worsted in the Franco-German war in 1871, the French had to withdraw their troops from Algeria, and thus a grand opening was left for insurrection, Mokrani would not rebel, as he had pledged his word to the Algerian governor that there would be no rising against the French authority till the war was over. Even when a peace had been made, and he was thus released from his promise, he gave 48 hours' notice to the French of his intention to commence hostilities against them. Verily, he was a hero, and he died a hero's death in the thick of battle—Westminster Review.

An Additional Application.

Mrs. Woolbert (impatiently)—Get outen dis house, yo' good fo' nuffin!—Get nigger! Yo' oughter be 'shamed ob yo'self, sittin' dar all de day long watchin' yo' po' wife makin' de libbin' fo' de family.

Mr. Woolbert (with a whine)—Yo' didn't utter talk to me dat way yo' was dat married. Yo' utter call me Sugar, den.

Mrs. Woolbert—Yes, an' I calls yo' sugar now—load sugar. Dat's what yo' is—load sugar!—Puck.

Letting the Tailor Worry.

Perry—Gad, old man, that's a pretty stiff suit to owe one's tailor. Doesn't it bother you a bit?

Harold—No, I have troubles enough of my own.—Town Topics.

BETTER THAN MONEY.

A New and Important Way of Looking at the Currency Question.

Public interest for months past has been steadily concentrated upon our national currency. Parties are divided on the question. Men are worked up over it. It means a great deal for the welfare of millions.

There is one way of looking at the question that seems to have been lost sight of. Is it not better to have fifty dollars in gold than five dollars in silver? And yet there are many people who are practically throwing away large amounts and holding on to the smaller amount. Many people who might be earning ten times as much as they do, fail because they lack health and energy. Health and strength represent a value greater than gold, and yet many people put up with a run of nervousness, which steals away half their working power. Eventually they lose by sickness and medical expenses and their families suffer, when it might all readily be avoided.

Thousands are succumbing to the strains of life. Ill-health is the rule and not the exception. People need their best strength and energy all the while. Health, which is more valuable than gold, can be maintained and even secured when it is lost, if the proper care and right remedy are used. And we do not hesitate to say that there are but few men or women who read these words that cannot be put in perfect condition by the use of that great, that grand discovery, Warner's Safe Cure. This entire paper could be filled with testimonials from the vast number of whose lives have been saved and whose health restored by its use; and if you, reader are a sufferer, you may readily be among the number. We earnestly recommend you to think seriously upon this subject.

MATABELES CLOSE IN

(Continued From Fifth Page.)

The general opinion, however, is that it was a more sinister purpose."

The Times has an editorial this morning, couched in serious terms, on the situation in South Africa. It says: "It is quite time that the nation and the government should realize that we have serious work both in Sudan and South Africa. The government ought to take steps to ascertain the extent and character of the Boer armaments, which even the Transvaal agent does not deny, but which he explains is out of respect for an old and long neglected law. That being the case, President Kruger cannot complain if we follow suit. The government ought not to delay to place an officer at the head of both the regular and irregular forces directed against the Boers."

The Standard, Conservative, in an editorial commenting upon the statement made to President Kruger by Sir Hercules Robinson on behalf of Mr. Chamberlain says:

"It is not clear whether Chamberlain's explanation is intended to minimize the significance of sending reinforcements to South Africa or to prepare the way for the disclosure of more important measures."

A dispatch from Pretoria to the Daily Telegraph says:

The trial of the members of the Nation al Reform committee will open on Tuesday and the state's attorney has summoned nearly all of the English naturalized residents of Pretoria for service on the jury. It is reported that Cecil Rhodes has declined to employ the regular troops from Natal for service in Matabeleland on the ground of their unfamiliarity with Matabele warfare.

The Infestation of Windy Vegetation.

At a meeting of the international meteorological congress—a report of which has recently been published—considerable attention was given to the effect of winds. It states that the destruction of the forests is responsible for many of the cold waves which we experience. Special mention is made of the disappearance of peach trees from Michigan, which is said to be traceable directly to the deforestation of the state and the uninterrupted rush of cold winds. The hot, sweeping winds of the plains, known as desiccating winds, are held responsible for a loss of something like \$1,000,000 in crops of corn in the state of Kansas alone. The absence of timber belts and wind-breaking forests allows these desiccating winds to sweep over many miles of cultivated land. These winds may reach a temperature of 108 or 109 degrees, with humidity not over 20 or 25 per cent, at the outside. This report recommends extensive planting of timber as the best protection against cold waves and hot winds.—N. Y. Lat.

The Compass Plant.

The "compass plant" is one of the oldest creations of the vegetable kingdom. It derives its name from the fact that its leaves always point directly north and south. So that if you are out on a western prairie and lose your way just look for one of these plants and remember that they always point in the directions indicated. Botanists call this curious plant "Siphium Lapidarium." It is unpretentious in appearance and bears yellow flowers that are not unlike field daisies. It has a remarkably thin leaf, so thin as to be noticeable even to the untutored eye. The "compass plant" is really a western flower and is indigenous to the prairies of that section.—Detroit Free Press.

Invigorating Atmosphere.—"No," said the gentleman from Maryland. "I shouldn't like to brag about the invigorating quality of the atmosphere down our way, but I will simply mention that a fellow in our town is making a good living by compressing it and sending it up to London for bicycle-riders to use in filling their tires. It has such elastic and lively qualities that the speed of the machine is increased from 40 to 80 per cent."—Tit-Bits.
